PROFESSIONAL WORK EXPERIENCE

Front End Developer Co-op

MAY 2020 – AUG 2020

GoGeekz, Toronto, ON

- Worked in an **agile environment**.
- Developed and delivered reliable front end application using **JavaScript** and different technologies.
- Designed and wrote **well-structured, easily maintainable, and well-documented code**.
- Learned how to contribute to a software development team.

Product Tester

JAN 2019 – MAY

2019

Best Buy, Brampton, ON

- Checked color, shape, texture and grade of products and materials against established template, charts and samples.
- Generated and submitted detailed reports to regulatory agencies and company leadership to help drive enhancements.
- Evaluated items to assign grades and marked quality level, rejection status or acceptance.
- Physically and electronically disposition the unit to the next logical destination.

PROJECTS

Buy The Way App

- Developed a **cross platform mobile application** that allows user to browse through all the different kind of promotions, offers and deals going on around us through business partners and promoters and would show all at one place.
- Our app also allows users to post or update any deal or promotion previously posted.
- Built in **React Native** for front-end, **MySQL** as backend and **java spring boot** for integration.

Hadoop Project

- Developed **Hadoop ecosystem** to store and analyze the smart electric meter information so that it can store information for approximately 500,000 houses.
- The system we designed uses various modules such as: **Flume, HDFS, Hive, MapReduce, Spark**.
